Potential competing interests: No potential competing interests to declare.

1. The paper is in an incomplete stage.
2. No experimental study has been done, and the experimental study to determine accuracy and efficiency is missing.
3. The proposed system is not compared with other existing methods.
4. The author needs to provide a detailed description of the hiding process which embeds the QR code, to be explained in a clear way.
5. Figures and tables need to be clear and need to be numbered.
6. Conclusions and future scope need to be specified.
