Potential competing interests: No potential competing interests to declare.

Authors written this paper well but requires some minor changes

1. Table 1 caption need to revise

2. Figure 1 not clear and purpose of this figure is not clear.

3. Reference citation is not as per standard, need to make uni

4. What is the need to detail describe Transfer Learning. Authors need to focus on research related thing rather than which is freely available on google.

5. Need to mention the reference for dataset used rather than there website details in text
