Potential competing interests: No potential competing interests to declare.

1. Both Research Question and the Importance of the research are not stated, thus the readers will find difficult to judge the novelty of the paper
2. The introduction has no single reference to prior works. Some statements made raises questions and require further explanation.
3. The literature review only like list several publications on similar topics but fails to present the logic of the prior research and contribution of different authors.
4. Support your result with literature reviews.
