

Review of: "Design of a Smart Motorcycle Parking System based on Wireless Sensor Network (WSN) in a Multilevel Building at Universitas Pendidikan Indonesia"

Gomatheeshwari Balasekaran

Potential competing interests: No potential competing interests to declare.

1. Clarity of explanation needed for Figure 5.
2. In Figure 5, does it show that the parking gate will open for each floor only for that vehicle, or at the same time?
3. Is this automated car parking? Does object/obstacle detection need a clear explanation?
4. Fig. 7 needs a clear explanation?
5. If parking is full on the first floor, the gate will not open. How will the vehicle move to the second floor?
6. Give the future scope of your work?
