

Review of: "On the ongoing need for naturalistic philosophy to interpret what occupational science is doing"

Ermiyas Tsehay Birhanu

Potential competing interests: No potential competing interests to declare.

I am grateful for the opportunity to review this manuscript. The topic is both interesting and relevant, and the paper is well-structured and covers all the necessary sections for a research paper. It provides a comprehensive analysis of theories that can be applied to understand occupational behavior in the present day.

In my opinion, the paper is ready to be accepted as it is.
