

# Review of: "Pela Gandong and Christian Education in Culture and Society Practices"

Ros Aiza Mohd Mokhtar

**Potential competing interests:** No potential competing interests to declare.

Overall, the article is acceptable and there is a room for improvement. Among my suggestions are; 1) Author should briefly explain what is Eseupalaloi when the term is first used. It is Pela itself? 2) The detail concepts of Pela should be clearly written at the beginning of discussion. I am referring to the three types of Pela which has been discussed in the subtopic of "Culture as an Oease of Values". 3) Author should clearly explain whether Pela Gandong culture being practised by Allang community or not. This data must be gathered from the interview session with Allang community. 4) Please reduce the repetition of points and facts. 5) Please increase the quality of English.
