

Review of: "The pros and cons of utilizing crude herbal preparations as opposed to purified active ingredients, with emphasis on the COVID pandemic"

Shujat Ali

Potential competing interests: No potential competing interests to declare.

The study is very nice and informative, but the title needs some revision. Please make it more attractive and informative for readers. Please include some statistical calculations for the selected plants along with the method of preparation of the drugs used for COVID. Author need to include some more information about *Artemisia* with the most recent references. Add some photos of drugs prepared for COVID. The name *Artemisia* is checked for spelling, and elsewhere, make it italic; also, write it like *Artemisia* Spp.,. Give some cited or lab evidence to support your study.
