World Health Organization Clinical Staging of HIV/AIDS for Children Clinical Classification

National Cancer Institute

Source

National Cancer Institute. *World Health Organization Clinical Staging of HIV/AIDS for Children Clinical Classification*. NCI Thesaurus. Code C124714.

A standardized rating scale developed by the World Health Organization (WHO) in 2007, which is a classification system used for immunological staging of HIV/AIDS in children with established HIV infection. This instrument classifies HIV disease on the basis of clinical manifestations.
