

Review of: "Taylor Series Based Domain Collocation Meshless Method for Problems with Multiple Boundary Conditions including Point Boundary Conditions"

Vijay Saw

Potential competing interests: No potential competing interests to declare.

The Paper is written in well manner also author discussed methodology and verified its results numerically. Author should discussed stability and convergence of the proposed algorithm and it is important part of validity of numerical experiments.

Accept the Paper with minor revision.

Comments for author:

1. Discussed stability and convergence of the proposed algorithm.
2. Error analysis of numerical experiments.
