Potential competing interests: No potential competing interests to declare.

1. Could the authors provide more details on the validation process of the FLC design? For instance, how was the rule base for the fuzzy logic controller developed and validated?
2. While the paper compares FLC with the P&O algorithm, please provide a comparative study table with other MPPT techniques found in the literature.
3. Please provide a discussion on the limitations of the current study and potential areas for future research.
4. Please correct for consistent formatting and accuracy in grammatical errors.
 1. Abstract: "This paper presents a comparison..."
 2. Simulation Results: "The simulation results show that..."
 3. etc.
