Central Nervous System Solitary Fibrous Tumor/Hemangiopericytoma, Grade 2

National Cancer Institute

Source

National Cancer Institute. *Central Nervous System Solitary Fibrous Tumor/Hemangiopericytoma, Grade 2*. NCI Thesaurus. Code C129528.

A solitary fibrous tumor/hemangiopericytoma that arises from the central nervous system. It corresponds to the more cellular, less collagenous tumor with plump cells and staghorn vasculature which was diagnosed as central nervous system hemangiopericytoma in the past.
