

# Review of: "An Empirical Examination of Collateralization in Financial Markets"

Milena Lopreite<sup>1</sup>

<sup>1</sup> University of Calabria

**Potential competing interests:** No potential competing interests to declare.

I suggest a minor revision as follows:

1. Introduction. Please summarize and describe better advantages and disadvantages of collateral.
2. Please discuss the section "Conclusion" in terms of "Policy implications"
3. Please discuss the limitations of the study
4. A linguistic review is strongly suggested.
