Based on my reading on the article on religious freedom freedom in Vientnam, here some inputs:

1. Basically, the basic idea of the article is good but it needs to be elaborated especially from the international perspectives or based on international surveys such as conducted by Pew Research Forum. Please support with the data of Pew Forum with the below link:

<https://www.pewresearch.org/religion/2023/09/12/buddhism-islam-and-religious-pluralism-in-south-and-southeast-asia/>

2. The writer should elaborate more on the introduction into 2-3 more paragraphs by adding some informations such as: literature review and research questions.

3. The same thing also on the conclusion which should be elaaborated further such as the positive aspects and some rescommendations.

4. In general in all paragraphs, the writer should combine some sentences into concrete and strong paragraphs. In the article, the writer composes very shorts paragrapghs which is not organize his/her thoughts well.
