# Group identity

Addiction Ontology

## Source

Addiction Ontology

**Definition:** An identity that a group holds about itself.

**Curator note:** can a socially shared representtaion be said to be purely cognitive? I.e query parent entity?

*This definition was imported from the Addiction Ontology (see<https://addictovocab.org/>). Comments and suggestions for improvements are welcome using the Qeios review system.*

*Definitions imported from the Addiction Ontology (AddictO) are what are known as ‘ontological definitions’. See this article in Qeios for an explanation <https://www.qeios.com/read/YGIF9B>.*

*Ontological definitions can sometimes be hard to read. In those cases we also include an informal definition.*

*Definitions also often require elaboration to make it clear how they should be used and what they include. In those cases we include a comment.*

*Also, definitions sometimes require an explanation as to how they came about to help users understand how they relate to alternative definitions. In those cases we include a curator note.*
