The context in the summary should be tied to the Pakistani context.

The method section of the abstract should indicate whether the questionnaire is available or developed by the authors

In the introduction, it should be made clear why this study is necessary in the Pakistani context

The theoretical basis of the transformational leadership style needs to be clarified, which aspects of transformational leadership were developed by the author or taken from the theory?

For more clarification on how to take samples, you can refer to the article:
