

Review of: "Nutritional Status and Dietary Patterns of Children Aged Ten Years and Below In the Buea Municipality, South West Region Cameroon"

Bilal Ahmed

Potential competing interests: No potential competing interests to declare.

The paper entitled "Nutritional Status and Dietary Patterns of Children Aged Ten Years and Below In the Buea Municipality, South West Region Cameroon" seems look. However my comments on the paper are follwing

Authors calculated dietary intake not dietary patterns. They need toc hange it througout the manuscript. Dietary pattern can be investigated through factor analysis.

Authors need to put more reference in the discussion

Limitation is missing in the manuscript.
