Potential competing interests: No potential competing interests to declare.

This paper is not able to be published due to major issues.

- Paper has a lot of grammatical/sentence errors.
- In the Abstract, focused on topic definition instead of paper flow.
- In the Introduction, focused on different topics and subtopics in detail instead of discussing the introduction of proposed paper topics.
- Paper alignment should be *justified*.
- What is the contribution of the paper?
- What is the methodology of the paper?
- Papers are not cited in sequential order. All papers should be cited in ascending order.
- There are so many grammatical and structural errors in this paper. The complete paper should be revised.
- Figure numbers are not in sequence.
- A conclusion is missing in the paper.
- There are no results in numerical form to support the proposed work.
- References of the latest years' papers must be included.
- Figure 1 should be discussed in detail and in a high-resolution format.
