

Review of: "Modelling of Quadcopter for Precision Agriculture and Surveillance Purposes"

Mohd Shahrieel Mohd Aras¹

¹ Universiti Teknikal Malaysia Melaka

Potential competing interests: No potential competing interests to declare.

The modelling of the Quadrotor can be verified or validated to make sure the modelling is acceptable.

The results of this project can be expanded more.

Figure 9 can have the legend and units added for better understanding.

Can future works implement a controller for this model?
