

Review of: "Secure and Private Machine Learning: A Survey of Techniques and Applications"

Ahmed Hussein Ali¹

¹ Iraqi University

Potential competing interests: No potential competing interests to declare.

-Explain how your study specifically addresses gaps in the literature, insufficient consideration of the topic, or other deficiency in the literature.

- Add a significance statement that must be structured as "what was discovered by the author? How the results are beneficial? How this study will help researchers to uncover critical areas? What new theory will be arrived by this research?

Discussion

Deeper discussion for results and findings is needed

conclusion

Add numerical results to conclusion
