

Review of: "Narrative Medicine: Enhancing End-of-Life Care with Literary Stories"

Aurélie Godard-Marceau

Potential competing interests: No potential competing interests to declare.

This article describes a method without presenting the results of its use on patients. It's not enough that the authors are convinced of their method. It would be necessary to express exactly how it can be used and what impact it has had on patients and professionals. A real test of the method is needed.
