CAR T-Cells AMG 119

National Cancer Institute

Source

National Cancer Institute. *CAR T-Cells AMG 119*. NCI Thesaurus. Code C150586.

A preparation of T-lymphocytes that are genetically engineered to express a chimeric antigen receptor (CAR) that targets an as of yet unidentified tumor-associated antigen (TAA), with potential immunomodulatory and antineoplastic activities. Upon administration of the CAR T-cells AMG 119, the T-cells target, bind to and induce selective cytotoxicity in tumor cells expressing the TAA.
