Potential competing interests: No potential competing interests to declare.

All previous feedback given have been addressed. Clearer presentation of the relevant literature in the area, with an appropriate range of literature sources. Results better presented and analysed accordingly. Author goes on to indicate recommendations, however, it would be good to clearly identify the implications for research, practice and/or society and if these are consistent with the findings and conclusions of the paper. Overall cohesion is achieved throughout the article.

Few points to note:

Page 3: Section 1.3:

Second sentence:

According to The National Research Foundation records, very few studies have delved into a comparative understanding of how learners' right affect disciplinary procedures at the basiceducation level, hence, this study will be a first of its kind in the Umbumbulu Circuit in KwaZulu-Natal, concerning this topical phenomenon - Sentence too long.

Proofreading required, some examples:
