Potential competing interests: No potential competing interests to declare.

AI-generated deepfakes are the complex and pervasive challenge in today's digital world. This review paper on Exploding AI-Generated Deepfakes and Misinformation: A Threat to Global Concern in the 21st Century, analyzed the multifaceted landscape of deepfakes, encompassing their technological underpinnings, societal implications, detection methodologies, and ethical considerations. As a review paper, this is good to understand the challenges and solutions.
