# Renal tubulopathy-encephalopathy-liver failure syndrome

INSERM

## Source

*INSERM. (1999). Orphanet: an online rare disease and orphan drug data base. Renal tubulopathy-encephalopathy-liver failure syndrome. ORPHA:254902*

Renal tubulopathy - encephalopathy - liver failure describes a spectrum of phenotypes with manifestations similar but milder than those seen in GRACILE syndrome (see this term) and that can be associated with encephalopathy and psychiatric disorders.
