

Review of: "Evaluation of Antioxidant Activity and α -Amylase Inhibitory Potential of *Melilotus indicus* Ethanolic Extract: An In Vitro and In Silico Study"

Mediline Goboza

Potential competing interests: No potential competing interests to declare.

1. The introduction is not clearly stating the rationale of the study.
2. Please use italics when writing the name of a plant.
3. Please provide the herbarium number of the plant.
4. In some sections, the name *Melilotus* (genus name) was used to refer to *M.inducus*. In your introduction, do all species of *Melilotus* have the same traditional uses?
5. It was imperative to determine the phenolic compounds by HPLC and see the concentrations of the flavonoids in the plant collected in the region, as you rightly indicated that the concentrations of active constituents are influenced by geographical location.
