Review of: "Product of Distributions Applied to Discrete Differential Geometry"

Oğuz Yağcı[1]

1 Kirikkale University

This paper is well organized and has an innovative perspective. Only the references could be updated with current and recent studies related to this study in the literature.

The article contains some grammatical and spelling errors. The English needs to be revised again. Attention should be paid to spelling and capitalization throughout the article. Some minor corrections to the spelling errors are given below.

Page 2, 2nd line from the end: F(u(x)) brackets missing, and Line 1 from the end: missing F

Page 3: In Formula (5), "the" is written twice and on page 12, line 8, "we" is written twice.

Page 4: In Formula (9), the integrand should be f(x)d(x).

Page 4: At the top of formula (8), the parenthesis sign (x) is missing.

Sincerely…
