Potential competing interests: No potential competing interests to declare.

Overall, the paper is good but needs minor changes for a better version. The author should add the following changes:

To clarify, please include the reasons for using this method in this study. Also, describe the objectives to be achieved from the use of the qualitative method?

I think the number of hypotheses is too high. Please add a table to offer a summary of the hypotheses results with remarks for easy understanding.

Thanks,

Best,

R
