

Review of: "Relationship between Job Satisfaction, Work Stress, Organizational Commitment and Turnover Intention of Chinese Medicine Practitioners in Hong Kong"

Sama Amirkhani

Potential competing interests: No potential competing interests to declare.

Thanks to the authors for the manuscript.

I would like to say some comments that I hope it is helpful.

The abstract is a very important part of scientific articles, and in fact, it is the summary of your research work.

So it is better to bring the details of the software you used and your methods. In addition, in the findings of the abstract, try to mention your statistical results as well as the P-value.
