

# Review of: "Business projects need to be handled differently from construction projects"

Ford Lumban Gaol

Potential competing interests: No potential competing interests to declare.

1. The abstract must revise with Problem definition, methods and research result. Please adjust it.
2. Please add with the survey literature and make sure you cite them on your paper.
3. Please add with the research model. We can not find it on the paper.
4. On the "2. What is a business project? Some contextual examples" We strongly suggest you add with more concepts and also the models base on the current examples.
5. Please also add more rigorous discussion about the challenging of construction project as well as with the model "3. What is a business project? Comparisons with a typical construction project"
