Potential competing interests: No potential competing interests to declare.

1. The abstract should be precise. It must discuss the entire paper briefly.
2. Limitations of existing schemes are not clearly mentioned.
3. The linguistic quality needs improvement. It is essential to ensure the manuscript reads smoothly - this helps the reader fully appreciate your research findings.
4. ADD/REVISE/UPDATE more recent references to your manuscript, to show that your research work is up to date, you're contributing to the development of the topic, and your submission is aligned to the scope and coverage of this journal.
5. Add the industrial significance of the proposed approach.
