Potential competing interests: No potential competing interests to declare.

1. Characteristics of included studies should be added in the form of table with headings aims, outcomes, population etc .
It is missing
2. Variables involved in effectiveness of copper nanoparticles in the healing process of chronic wounds in in vivo and in vitro studies is missing
3. Add PRISMA flow diagram
4. Add quality assessment showing outcomes and evaluation standards for the studies.
5. Add section showing relation between NPs and Wound Treatment
6. Add Scope and Limitations
7. Discussion section is very short. Authors are requested to elaborate it along with Summary of Key Findings and Interpretation
