Host Dendritic Cell Vaccine-001 MSSM/BIIR

National Cancer Institute

Source

National Cancer Institute. *Host Dendritic Cell Vaccine-001 MSSM/BIIR*. NCI Thesaurus. Code C84845.

A dendritic cell (DC) vaccine containing ex vivo expanded autologous DCs obtained from a patient with leukemia with potential immunostimulating activity. Upon reintroduction into the host, the host dendritic cell vaccine-001 MSSM/BIIR may stimulate the immune system to mount a leukemia-specific cytotoxic T lymphocyte (CTL) response.
