Dear Authors,

I would like to express my appreciation for your article. I have minor comments which are demonstrated below.

1. All abbreviations need to be mentioned in full form the first time.
2. The manuscript needs English revision.
3. Please describe and discuss the novelty of this study.
4. In the Materials and Methods, the references of your methods should be mentioned.
5. In the Materials and Methods, all materials and devices must be addressed with their manufacturers and countries of origin.
6. In Materials and Methods, explain more details, especially in the Methods section.
7. The legend of Figure 1 should include the magnifications of the micrographs. Furthermore, error bars are necessary.
8. The references should be updated.
9. Add the limitations of the study.
10. In the Discussion, discuss your results more.
