Potential competing interests: No potential competing interests to declare.

This document is not a research paper. In order to become a research paper, it needs data on outdoor activities (which ones? methodology? results? analysis?) and a demonstration of how these activities really enhance cohesion with Ta'awun. This reviewer encourages the authors to do so. If this platform is used to disseminate the ideas of the article and publish the research results in an impact journal later, it would make sense too.
