Potential competing interests: No potential competing interests to declare.

Abstract:

1. Mention from where the sample collection was done.
2. Who diagnosed the cows (is by a veterinarian) - the author should mention.
3. The ethical statement for the work must mention
4. What are the inclusion and exclusion criteria?

Isolation and Identification:

1. Check repetitions.
2. Mention the media used to isolate *S. aureus* instead of NA, since it is not a selective medium for the isolation of this bacteria + other ways to identify this bacteria.

The discussion and conclusion parts need more information.

References for the manuscript need to be checked and updated.
