Thanks a lot for the invitation to review the short communication entitled [A New Record of *Elymnias Caudata* Butler, 1871 \(Insecta: Lepidoptera: Nymphalidae\) from Nagpur in Central India](#).

This article reports the first record of the butterfly species *Elymnias caudata* and highlights the importance of urban green spaces for conserving butterfly diversity.

1- It is such an interesting and valuable report, but it needs some corrections to improve clarity and consistency.

2- The authors must revise and write all scientific names of the genus and species in italic throughout the article (abstract, introduction, methods, results, and discussion sections).

- All corrections and comments are found in the attached Word document (track changes). Also, .

With my best wishes,
