Potential competing interests: No potential competing interests to declare.

My revisions will be only from grammar perspective.

In Abstract Section: In the first sentence: "Vaccination is considered as (as should be added) the most....). In the second sentence: "A safe and effective vaccine is considered like a (like a should be added) critical tool....

In Methods Section: In the third sentence second article "the" can be deleted. And in the last sentence first article "the" can be deleted.

In Results Section: First sentence cannot be understood. It will be good for the authors to redesign it.

In Sampling Section:

In first sentence, after who attended the study in the health center.... should be added.

In the second paragraph the last sentence instead of Health Ministry. Ministry of Health (MoH) should be written.

In Ethics Issues Section:

The last sentence can begin with Also. Also institutional ethical compliance....

In Discussion Section:

The paragraph which begins with However and in the first sentence, after the word considered "as" should be added.
