

# Review of: "Synthesis of 1, 2-Disubstituted Benzimidazoles at Ambient Temperature Catalyzed by 1-Methylimidazolium Tetrafluoroborate ([Hmim] BF<sub>4</sub>) and Investigating Their Anti-ovarian Cancer Properties Through Molecular Docking Studies and Calculations"

Yeddala Aparna

Potential competing interests: No potential competing interests to declare.

1. The paper gives a detailed description of the synthesis of disubstituted benzimidazoles using ionic liquids, which are highly selective.
2. The docking studies were well compared.
3. Recent and additional references need to be incorporated, and images may be in appropriate and equal sizes.
