# T2c Stage Finding

National Cancer Institute

## Source

National Cancer Institute. *T2c Stage Finding*. NCI Thesaurus. Code C48727.

A general term that refers to a TNM finding of a primary tumor growth beyond the level of in situ cancer, minimal subepithelial invasion, or minimal greatest diameter. The definition of T2c TNM finding depends on the specific type of cancer that it refers to; for example, for prostate cancer it refers to a primary tumor that involves both lobes of the prostate gland; for ovarian cancer it refers to a primary tumor that involves one or both ovaries with extension or implants on the uterus and/or fallopian tubes, or other pelvic tissues, with malignant cells in either ascites or peritoneal washings; for fallopian tube cancer it refers to a primary tumor with pelvic extension and malignant cells in ascites or peritoneal washings.
