Potential competing interests: No potential competing interests to declare.

And this article is a well-written article, but it's unclear if it would be valid from a clinical medicine standpoint. It certainly has some viewership, but the appropriate journal needs to be figured out.

To make it more like an actual scientific research paper, it needs to have better techniques of methodology, some more numerical calculations, and tables. Although the manuscript is well-written and references, it looks more like an essay or a blog.
