- The research topic is very interesting and important. Some suggestions as follows: Add total sample size. How many total schools/colleges/institutes are there in the Chanakyapuri Division of New Delhi? Methodology and analysis is not coming out very clear (should also be clearly outlined in the Abstract).
- Were these all Government or Private institutions? A comparison between the compliance by Govt. and the private institutions can be added.
- The results can be presented in a tabular format for a better understanding.
- The scope and limitations of the research study should also be included.
