

Review of: "[Case Report] Clear Cell Carcinoma of the Ovary with Disseminated Intravascular Coagulation and Haemoperitoneum with Tumour Perforation"

Thomas Menter

Potential competing interests: No potential competing interests to declare.

I have some suggestions to improve the manuscript:

Adding the TNM-classification would be helpful.

Is it correct the patient had endometriosis?

According to reference 2: could the authors look for tumor infiltrating lymphocytes by CD8 staining in their case?

Were D-Dimers measured?
