This is an interesting piece with a well written abstract and structure that makes it easy for a reader to follow. However, there are a few things I think can be improved.

- Some paragraphs have been repeated in the introduction (for instance paragraphs 8 and 7 are the same as paragraphs 18 and 17 respectively).
- Also, it's necessary for the authors to work on the intext citation. Following the APA style for instance, just the surname and date of publication is required.
