GAIA Level 1b Fetal Growth Restriction

National Cancer Institute

Source

National Cancer Institute. *GAIA Level 1b Fetal Growth Restriction*. NCI Thesaurus. Code C128722.

GAIA Level 1b Fetal Growth Restriction is defined by two criteria: first, Level 1 evidence of pregnancy dating; second, an estimated fetal weight below the tenth percentile using locally-accepted growth curve AND either no findings of absent or reversed end-diastolic flow of the umbilical artery Doppler OR absence of oligohydramnios.
