

Review of: "IoT Noise And Air Quality Observation System"

Julio Garcia-Calvete

Potential competing interests: No potential competing interests to declare.

First of all, thank the authors for their idea of contributing technological and safety issues to the hospital environment.

Completely agree with Suprava Ranjan Laha's comments. Additionally, the article would improve with contributions based on the practical implementation of the proposed model.

Figure 2.5 does not provide information. Figures 4.2, 4.3, 4.4, and 4.5 could be summarized in figure 4.1. Some references are not verified. References are not cited in the text.

The section "5.1 Future Plan" has been written in the first person, and two authors sign the article.
