Dubois and Dubois Body Surface Area Formula

National Cancer Institute

Source

National Cancer Institute. *Dubois and Dubois Body Surface Area Formula*. NCI Thesaurus. Code C68647.

The formula to calculate body surface area as described by D and EF DuBois. It is mathematically defined as: $BSA (m^2) = 0.20247 \times [Height(m)^{0.725} \times Weight(kg)^{0.425}]$
