**Potential competing interests:** No potential competing interests to declare.

- 1- The topic is very important because of the challenges of the times and the impact of climate change on various aspects of life.
- 2- The paragraph on climate change must be summarized and its impact on other aspects should not be elaborated upon. The focus must be on the main point of the topic.
3. At least 5 more recent sources regarding the climate impact must be included
- 4- The research did not address comparisons or illustrative drawings between the points of influence or methods of solution strategies.
- 5 The main objective and its impact on the conclusion were not clarified in general. The food security paragraph was mentioned at the end of the introduction and it focuses on the effect of calories from pesticides.
- 6 It is necessary to mention the basic conclusion in the conclusion part and mention the most important effective methods to reduce the climate impact in the basic research point.
