Potential competing interests: No potential competing interests to declare.

1. The manuscript is important for the scientific community, and the manuscript presentation style is very good.
2. Title of the article is suitable.
3. Abstract of the article is comprehensive.
4. The subsections and structure of the manuscript are not appropriate because of the very short introduction.
5. Manuscript is scientifically correct but needs to further flourish the presentation style.
6. Need to add figures and tables of different compounds.
