Potential competing interests: No potential competing interests to declare.

This is a well-written article which made a comprehensive and thorough theoretical discussion and gave insights to future studies. The authors made clear explanation of the concepts of Cosmopolitanism and Global Citizenship and situations in different regions. The analysis of situations in some regions is a little hasty and demands more literature review on the studies in these region. Also, Rizvi's notion of cosmopolitan learning is suggested to be included to enhance the critical dimension of cosmopolitanism.
