In the results and methods section, please mention the dollar equivalent of the Nira currency for the socioeconomic classification based on its value at the time of writing the manuscript.

In Table 2, you have mentioned in the first row that about 166/217 heard about the Rota vaccine. You still need to put the denominator of 166 for all other rows in order to clarify the source of percentages you have mentioned in the remaining rows (from row two to the last row in Table 2).
